The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS The Publishers of Webster's International Dictionary aliese that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation."

mod severer requirements of another generation.

We are of the opinion that this allegation most clearly and accurately describe the work that has been accomplished and the result that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly resulted in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a reperation which demands more of popular philological knowledge than any generation hat the world hasever contained.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.

TUESDAY EVENING, DEC. 4, 1906,

ARCHBISHOP IRELAND has made a statement in elaboration of his views on the dangers of anarchy, a subject on which he touched, awakening wide interest, in his address at the reunion of the Army of the Tennessee at Council Bluffs. Among other things the Archbishop says:

The very profuseness of the prosperity of the United States begets peril, unless the American people can be taught to use these favors well and wisely.

The wild snarchist, the would-be-assassin are the public enemies of society, whom to tolerate is to tolerate open sedition. An enemy, too, of pub-lic order is the workman who, refusing his own labor, deters by violence a brother workman from offering his labor as is, even in a greater degree, the strong and the powerful who override the law of the land on carrying out the schemes of their ambition. The gravof their ambition. * * * The gravest responsibility rests on all to most slowly, to think wisely, to avoid all perils of leaps into the dark. perils of leaps into the dark.

To the poor man, to the wags earner, I should indeed preach the doctrine of ambition and energy Let everyone aim to secure a competency for himself and his family. Let everyone strive to rise; it is his right; it is his duty. But all this he must do by means that are fair and just without ever infringing on the rights of others, by they his fellow. the rights of others, b they his fellow-laborers or those whom he and they call the rich of the land. To the rich and the more fortunate I should preach unceasingly the doctrines of justice and charity. " " " Unreasonable querulonsness among the poor, senseless extravagance among the rich are equally to be reprehended, and if one is to be reprehended more severely than the other, it is the senseless extravagance of the rich. It is a crime against humanity it is madness itself to squander money in mere reckless ostentation.

He declared the industrial association was formed to defend communities and citizens from "the destructive acts of both capital and labor."
